SUMMARY

Computer Engineering graduate with experience building software solutions, integrating hardware systems, and supporting end users in fast-paced environments. Worked on full-stack web applications using Python, Vue.js, and PostgreSQL, while also leading the development of an IoT and computer vision-based thesis project. Comfortable working across different areas of technology, from application development and databases to troubleshooting and system integration. Recognized for quickly learning new tools, taking ownership of technical challenges, and explaining complex concepts clearly.

SKILLS & COMPETENCIES

- **IoT & Embedded Prototyping:** Circuit Prototyping, Espressif Systems, Arduino, Hardware-Software Integration
- **Full-Stack Web Development:** Python, JavaScript, Vue.js, FastAPI, HTML5/CSS3
- **Data, AI & Infrastructure:** Computer Vision, PostgreSQL, MySQL, SQLite, Docker, Git
- **Technical Support:** Client Resolution, Troubleshooting, System Diagnostics

RELEVANT EXPERIENCE (SOFTWARE DEVELOPMENT)

JFE Techno Manila, INC.

Software Developer Intern (Onsite, ICT Department) | Jan 2025 – May 2025

- **Engineered full-stack features** for a time and attendance web application serving 400+ employees, using Vue.js and Python (FastAPI).
- **Architected PostgreSQL database schemas** via SQLAlchemy to track employee man-hours and power attendance data visualizations.
- **Implemented Role-Based Access Control (RBAC)** to secure sensitive employee data and enforce data privacy compliance.
- **Participated in Agile/Scrum ceremonies** (stand-ups, sprint planning, code retrospectives) to maintain consistent deployment velocity.

OTHER PROFESSIONAL EXPERIENCE

TaskUs Phoenix – Ortigas, Pasig City

Customer Service Representative (Food Delivery Support) | Aug 2025 – Present

- Delivered real-time technical and logistical support to delivery partners, resolving GPS anomalies, tracking orders, and processing driver payouts via proprietary software.
- Analyze complex account issues to provide rapid resolutions, maintaining high satisfaction scores in a fastpaced environment.

FIS Global Solutions Philippines INC. – Magallanes, Makati City

Customer Service Associate (Bank Representative) | June 2022 – Feb 2023

- Diagnosed and resolved issues related to mobile banking transactions, direct deposits, and debit card activation.
- Educated users on mobile app features and security best practices, effectively translating complex banking terms into accessible language.

EDUCATION

Bachelor of Science in Computer Engineering | 2021 - 2026

Rizal Technological University

- Dean's Lister & Academic Achiever
- CPE Councilor, PCEA Student Council
- Member, ALCES (Alliance of Computer Engineering Students)

PROJECTS

IoT-Enabled Smart Incubator with Computer Vision | *University Thesis*

Thesis Leader, Project Manager & Systems Architect

- Led a multidisciplinary team in developing an IoT-enabled smart poultry incubation system.
- Architected and implemented a full-stack solution using Python, Vue.js, and Arduino C++ for automated environmental control.
- Developed an R-CNN computer vision model for embryo development monitoring and incubation tracking.
